### Good sources on microwave radiation science and activism:

- > Excellent science-based site on wireless and 5G. See list of studies relevant to 5G radiation. <https://www.ehtrust.org>
- > Excellent basic 5G science and advocacy: <https://zero5g.com/>
- > More good 5G info in plain language: <https://whatis5g.info>
- > Advocacy based on scientists' research of the hazards of RF/MW radiation <http://scientists4wiredtech.com>
- > Offers how to oppose 5G and general EMF info: <http://emfsafetynetwork.org>
- > National 5G opposition organizing effort: <https://5Gcrisis.com>
- > Science-based report on health effects of wireless radiation: <https://www.bioinitiative.org>
- > Compelling 5G documentary, *5G Apocalypse*: <https://sachastone.com/5g-apocalypse-extinction-event/>
- > Short documentary on technocracy, *5G Dragnet*: <https://www.corbettreport.com/the-5g-dragnet/>

# WAKE UP, SPEAK OUT!

## Take ACTION Today!

- Educate yourself, share your knowledge, make yourself heard!
- Tell friends, family, neighbors, coworkers what's going on right under their noses.
- Hold community meetings; show *5G Apocalypse*, *5G Dragnet*, *Generation Zapped* & other videos on wireless dangers.
- Find a 5G opposition group in your area; organize demonstrations; distribute information about 5G.
- Write letters to the editor, citing facts. Share info on social media!
- *Contact your Town Officials, State Attorney General, State & US Rep & Senators, Governor, etc.!*

**12 Good Reasons to Oppose 5G**

**...for life's sake...**

**1 5G wireless infrastructure was stealthily built for years; 5G is now becoming active globally.**

5G (fifth generation) wireless has been rolled out without public input or participation. It is industry- & government-driven. 5G radiofrequency/microwave (RF/MW) radiation, due to its proximity to homes, is orders of magnitude more intense than 4G radiation, which itself is very harmful to living beings. Such 24/7/365 exposure to weapons-grade MW radiation has thousands of scientists, doctors, engineers, and lawyers warning about impacts on health, environment, privacy, security, personal choice, and more.<sup>1</sup>

**2 5G has been proven hazardous to living beings.**

The ~ 25,000 scientific studies of RF/MW radiation bioeffects should result in the ban of 5G, but the telecommunications industry has escaped scrutiny. FCC guidelines apply only to RF/MW radiation exposures of 6 minutes or less, not 24/7/365. The US & UK allow radiation exposures up to thousands of times higher than gov'ts of most of the world's industrial countries. Industry lawyers have stifled discussion of health effects and health science in public hearings.<sup>2</sup>

**3 5G will produce severe health effects worldwide.**

Many people, injured by wireless radiation, suffer from Electromagnetic Sensitivity (EMS), a debilitating condition preventing them from using electronic devices.<sup>3</sup> Exposing the world's population to 5G radiation 24/7 would produce neurological, cardiac,

immune, fertility, cancer, & other health problems in epidemic proportions. Everyone would be affected to some degree.

**4 5G is harmful to ALL life on Earth.**

5G deploys MW radiation in wavelengths previously used only as weapons. Some wavelengths are optimally absorbed by the brain & heart, others by children & infants. Yet others by birds & bees. Maximum absorption means maximum harm. When 5G antennas are irradiating, escape is impossible. Pets, farm animals, wildlife, pollinators, & plant life would all be gravely affected.<sup>2</sup>

**5 Scientists worldwide warn against 5G.**

As of March 2021, an international appeal for a moratorium on 5G had been signed by 414 scientists;<sup>4a</sup> the 5G Space Appeal had gathered ~ 306,000+ professional & other signatures;<sup>1</sup> and nearly 200,000 people had written their officials to alert them to harm from 5G.<sup>4b</sup>

**6 5G tech junk would litter the landscape everywhere.**

"Small cell" (5G) antennas emit irradiating power similar to large cell towers. They are to be sited very close to homes, or placed on street lights, utility poles, bus stops, sides of buildings, hills, or on any public property, where people would have full-on exposure when walking by, and would have to live with unsightly views.<sup>5</sup>

**7 5G decreases property values.**

Real estate studies have determined that property values decrease when cell phone towers are placed in neighborhoods.<sup>6</sup>

**8 50,000+ 5G satellites are OK'd for low orbit.**

Several telecoms plan to beam focused MW radiation over the entire Earth at all times, with no avoidance possible. Many 100s are already launched.<sup>7,11</sup>

**9 You neither need nor benefit from 5G.**

Fiber-optics cable wired to the home provides the safest, fastest, most secure internet. Wireless systems can facilitate data collection, allowing illegal privacy invasions and warrantless surveillance.<sup>8</sup> Telecoms also have applied wired customers' payments to wireless rollouts, which is fraud.<sup>9</sup>

**10 5G will add to, not replace, current wireless systems.**

All fixed and mobile devices already work well. There is no good purpose for 5G deployment; it's not necessary and would have dire consequences.

**11 State and local gov'ts. are under enormous pressures.**

Governing bodies are told to accept 5G equipment without time or resources to process applications.<sup>10</sup> However, some municipalities, states, and foreign jurisdictions are now resisting w/new bylaws.<sup>2</sup>

**12 Do you want a 5G antenna in front of YOUR home?**

If not, PLEASE SPEAK OUT!

**"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has." – Margaret Mead**
